Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-15, drawn to an isolated nucleic acid, expression vector, or host cell wherein the nucleic acid sequence is SEQ ID NO: 4, 5, or 6, classified in class 536, subclass 23.1.
 - II. Claims 16-18, drawn to a non-human transgenic animal which is introduced with a gene fragment containing the nucleic acid sequence of SEQ ID NO: 4, 5, or 6, classified in class 800, subclass 8.
2. The inventions are distinct, each from the other because of the following reasons:

Although there are no provisions under the section for "Relationship of Inventions" in M.P.E.P § 806.05 for inventive groups that are directed to different products, restriction is deemed proper because these products constitute patentably distinct inventions for the following reasons. Groups I and II are directed to products, and nucleic acid and a non-human transgenic animal, respectively, that are distinct both physically and functionally, and are therefore patentably distinct. While the nucleic acid of Group I may be used to generate the non-human transgenic animal of Group II, the method of production of the two products is vastly different. To make a non-human transgenic animal, embryonic stem cells (ES cells) growing in tissue culture are transformed or the desired gene can be injected into the pronucleus of a fertilized mouse egg. The isolated nucleic acid is produced by DNA synthesis.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. A telephone call was made to Attorney Y. Rocky Tsao on April 17, 2006 to request an oral election to the above restriction requirement, but did not result in an election being made.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Humphrey whose telephone number is (571) 272-5544. The examiner can normally be reached on Mon-Fri 8:30AM-5PM.
